

Message from the Editor-in-Chief

I am happy to announce the 2nd online edition of *BSCES Civil Engineering Practice*. This peer reviewed journal, has been in publication for over 100 years, includes innovative research and practice-oriented work in the field of civil engineering.

The BSCES Journal has been a repository of the amazing work that has been done in the New England/Boston Area. This journal is targeted for working professionals and for academics who want to publish their innovative projects and research with applications in civil engineering.

With the Covid-19 pandemic continuing to surge in the US and all over the world, civil engineering, construction, and infrastructure renewal/maintenance are essential to the safety, and economic well-being of our communities. *BSCES Civil Engineering Practice* is committed to keeping the profession informed during this unprecedented period.

We hope *BSCES Civil Engineering Practice* will become your primary platform to share findings and discuss all aspects of civil engineering in the development of future innovations that will benefit the community. We are now welcoming submissions for future issues of the journal

Sincerely,

A handwritten signature in green ink, which appears to read "Gautham P Das". The signature is fluid and cursive, written in a professional style.
